

Ellie

Boost your revenue while improving patient outcomes.

Ellie is the future of care management

No more giving patients generic care plans on paper that are quickly lost or forgotten. Ellie replaces endless phone tag and voicemails with messages delivered right into patients' hands.

Ellie is a revolutionary app that puts money in your pocket by helping you qualify for new Medicare reimbursements. Ellie streamlines your care management process and enables you to partner directly with patients for improved outcomes and greater efficiency.

Increase your annual return on investment by

\$100,000+

per provider

Generate More Money for Your Practice

Ellie helps medical practices boost revenue through additional CPT code reimbursements and care manager productivity.

Happier, more efficient care managers

Ellie helps care managers prioritize their workflow by easily and clearly seeing which patients need attention.

Real-time data improves insight and replaces guess work

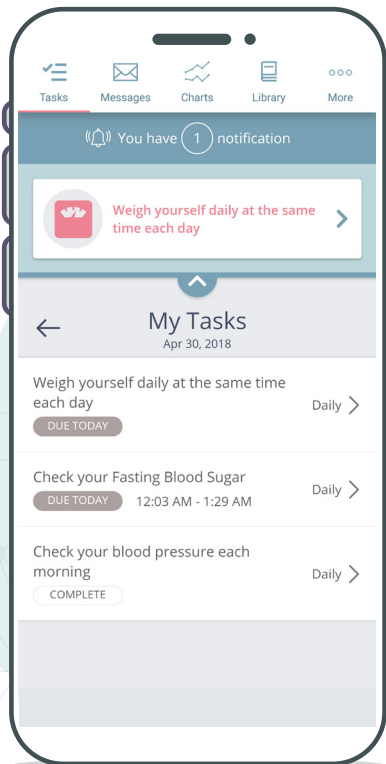

Care managers get better patient collaboration and compliance

Managing care remotely allows scarce patient visits to be deep, personal consultations rather than spending time collecting and recording basic data

Search this list	Date of Birth	Patient ID	Sex	Last Contact Date
